TRADE EXHIBITORS' PROFILES

Diamond Exhibitor Profile

Elsevier is a global information analytics company that helps institutions and professionals progress science, advance healthcare and improve performance for the benefit of humanity. We help researchers make new discoveries, collaborate with their colleagues, and give them the knowledge they need to find funding. We help governments and universities evaluate and improve their research strategies. We help doctors save lives, providing insight for physicians to find the right clinical answers, and we support nurses and other healthcare professionals throughout their careers.

Technological advancement and the data revolution have pushed the boundaries of science and medicine. Discoveries unimaginable a generation ago are uncovered every day. At Elsevier, we recognize the potential for scientists and clinicians to find new answers, reshape human knowledge and tackle the most urgent global crises. We want to make analysis easier for everyone working in science and medicine, enabling them to manage their work more efficiently and spend more time making breakthroughs. That's why Elsevier is evolving. Growing from our roots in publishing, we're creating analytical solutions to serve the needs of science and health.

Silver Exhibitors' Profile

Publish with confidence using knockout-validated antibodies. Around half of the money spent on protein-binding reagents globally is wasted due to non-specific and inconsistent antibodies¹. Simply offering replacements is not good enough. Your results are too important for uncertainty. Antibodies validated in knockout cell lines, which do not express the protein of interest, provide a true negative control and guarantee specificity. See how at: www.abcam.com/validation

Nano Life Quest Sdn Bhd (EST 2005) is the fastest growing professional distributor in Malaysia that provides complete solutions for scientific market segments by offering high-quality products from leading brands. With excellent after-sales service, we do not only serve to Malaysia market but also ASEAN countries and beyond.

BGI Genomics provides a wide range of next generation sequencing services and a broad portfolio of genetic tests for medical institutions, research institutions and other public and private partners. BGI currently operates in more than 100 countries and regions and works with more than 3000 scientific and medical institutions across the world.

Biomed-Global is one of the most respected brands in the biomedical and life sciences industry in Malaysia and Singapore. We aim to raise the quality of healthcare standards & facilitate medical breakthroughs by bringing innovative medical solutions and people together.

Next Gene Scientific provides premier solutions including reagents, instruments & services for scientific community work with:

- Molecular Biology
- Cell Biology, Cell Isolation & Separation
- Microbiology
- Protein / Immunology
- Molecular Diagnostics
- Genomic Services including Next Generation Sequencing

The brand name Eppendorf is synonymous with high quality and robust laboratory tools and instruments. From micropipettes and centrifuges to freezers and shaker incubators, Eppendorf has served the scientific community for more than 55 years. Undoubtedly, Eppendorf will remain with this tradition with continuous innovation and reliable laboratory products.

PLT SCIENTIFIC SDN BHD

PLT Scientific Sdn Bhd is a leading supplier of science equipment in Malaysia offering products ranging from state-of-the-art analytical instruments to basic laboratory glassware since 1989. It is registered with Ministry of Finance as a contract supplier of medical disposable ware, laboratory chemicals and laboratory equipment. PLT Scientific distributes accredited products from world-renowned manufacturers.

Since 1985, Straits Scientific (M) Sdn Bhd or "3S" has been providing quality laboratory research products in Malaysia, supporting the needs from the fields of clinical diagnostic, healthcare service & life science research.

We provide the most excellent instrument & equipment of:

- Centrifugation
- Automation
- Flow Cytometry
- Particle Size Analyzer
- Hematology Analyzer
- Coagulation
- General Lab equipment
